Professional Summary

Results-driven Full Stack Web Developer with over 2 years of experience building scalable web applications and e-commerce platforms using Laravel, PHP, and modern front-end technologies. Founder of TConnect, a fintech VTU platform with wallet systems and payment integrations. Skilled in creating fast, responsive, SEO-optimized websites that improve user experience and business performance. Strong understanding of technical SEO, API integrations, and performance optimization.

Technical Skills

PHP, JavaScript (ES6+), HTML5, CSS3, Laravel, MySQL, Bootstrap, jQuery, Git, SEO (On-page & Technical), API Integration, Responsive Design

Professional Experience

Full Stack Developer & Marketing Assistant – AAIPhones (Aug 2023 – Present)

Built and maintained an e-commerce website for mobile devices, implementing new features, fixing bugs, and improving performance.

Optimized website structure, content, and performance for better SEO visibility and user experience.

Collaborated on marketing improvements that enhanced online visibility and lead generation.

SEO Specialist – Guru Web Design & SEO (Sept 2024 – Mar 2026)

Executed local SEO strategies for 20+ international clients, improving search rankings and visibility.

Optimized Google Business Profiles, citations, and business listings for better local search performance.

Worked with structured SEO processes to improve organic traffic and search presence.

Lead Tutor – Kadahive Summer Classes (Jul 2025 – Sept 2025)

Mentored 15+ students in HTML, CSS, and JavaScript through hands-on projects.

Simplified technical concepts and guided students in building functional web projects.

Key Projects

TConnect – Fintech Platform (Founder & Developer)

Developed a fintech VTU platform with wallet functionality and payment integrations (Monnify, Paystack).

Built secure transaction systems and an admin dashboard for monitoring activities.

Designed scalable backend architecture using Laravel and optimized performance for smooth transactions.

AAIPhones – E-commerce Website

Built a responsive e-commerce platform for mobile device sales with structured product listings.

Improved user experience, navigation, and mobile responsiveness.

Dlite – Bakery Platform

Developed a bakery platform for product display and ordering workflow (testing environment).

Created a scalable structure for future deployment and business use.

Portfolio Website

Designed and developed a personal portfolio showcasing projects and technical capabilities.

Optimized for performance, SEO, and responsive design.

Education & Certifications

B.Sc. Computer Science (In Progress) — Ahmadu Bello University Distance Learning (2025 – Present)

Frontend Web Development Certification — Kadahive Innovation and Tech Hub (2023)

Additional Information

Strong problem-solving skills, attention to detail, and ability to work independently in remote environments.
